

A CORUÑA, SPAIN, JUNE 28-29 2024

ECOSYSTEMS
2030

A multi-disciplinary, cross-cultural, cross-boundary event like no other.

A melting pot of thought leaders in AI, Metaverse, space, transportation, sustainability, banking, food, clothing, healthcare, design, and entertainment.....coming together for three days to discuss and shape the future rapidly advancing upon us.

Ecosystems 2030 is an immersive, mind-boggling, exhilarating experience.

WIJAY WIJAYAKUMARAN

CHIEF ARCHITECT, MACHINE LEARNING & ARTIFICIAL INTELLIGENCE AT IBM

ECOSYSTEMS 2030

Ecosystems 2030 is an exclusive interdisciplinary forum for top executives, thought leaders, innovators, and futurists to explore the ecosystems emerging over the next 10 years from technologies including Artificial Intelligence, Autonomous Systems, Fintech, Medtech, Robotics, and more. Across the next decade, Ecosystems 2030 will investigate the upcoming opportunities and challenges these technologies and innovations present and offer important insights on how to transform organizations to ensure they remain relevant in the future.

ECOSYSTEMS 2030 SUMMIT

A CORUÑA JUNE 2024

During this two-day event, held in A Coruña, Spain, June 28-29 2024, we will explore **cross-industry innovation**, the impact of **business ecosystems**, the value of **diversity** in creating new waves of capability, and the effect of **emerging technologies** on industry, economy, and society. Our 2024 edition is proudly dedicated to **Women in Leadership**.

#SHAPINGTHEFUTURE

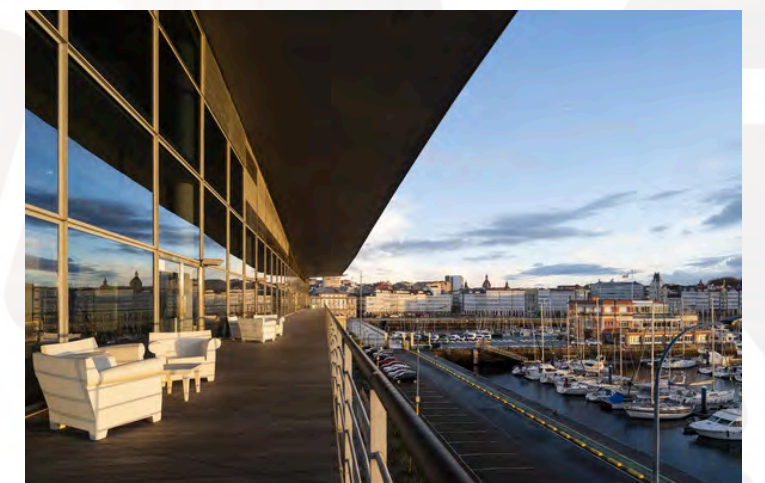

WOMEN IN LEADERSHIP 2024

28 JUNE SUMMIT OPEN SESSION

On the 28th of June, ES2030 will host an Open Session accessible to the general public, welcoming up to 1,000 in-person attendees. This session celebrates **Women in Leadership**, highlighting significant developments led by women in diverse sectors such as industry, government, medicine, and academia on a global scale. Over 40 leading female executives and experts take a deep-dive into the future of artificial intelligence, provide expert panels on cross-industry ecosystems and innovation, and address key themes affecting the future of society, industry, government, medicine, and academia during our captivating EcosystemsX talks.

29 JUNE BUSINESS ECOSYSTEMS DESIGN COURSE

On the 29th June, all attendees will have the exceptional chance to engage in a pioneering course on business ecosystems design, meticulously curated by Dr Michael Lerwick, renowned international bestselling author, consultant (Deloitte) and acclaimed speaker.

ECOSYSTEMS 2030 SNAPSHOT

This section provides important information about what sectors participate at Ecosystems 2030 Summit, who our participants are and which organizations they represent.

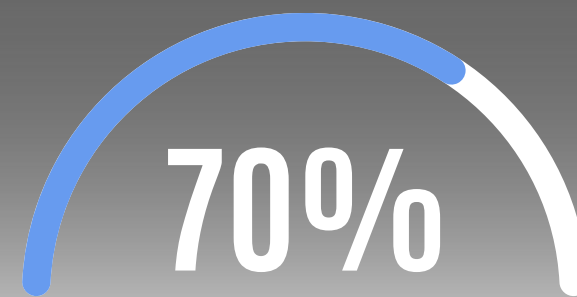

SECTORS

Our inaugural chapter in Granada, Spain (June 2021) delved into technology and innovation within the industrial sector. The following year, in A Coruña, Spain (2022), we expanded our horizon to explore the burgeoning metaverse. May 2023 marked our third chapter, again in A Coruña, where we focused on the evolving landscape of longevity.

Coming up in June 2024, our fourth chapter promises an engaging discourse on pivotal global issues spanning industry, academia, medicine, and government. This chapter will feature prominent participation from Heads of State, esteemed faculty, and leading figures in industry and politics, offering an unparalleled platform for influential dialogue.
